

ATELIER DE RECHERCHE « COLLABORATIVE HOUSING » DE L'EUROPEAN NETWORK OF HOUSING RESEARCH, RÉSEAU EUROPÉEN DE RECHERCHE SUR L'HABITAT ET LE LOGEMENT (ENHR)

Responsables du programme :

Claire Carriou, Université Paris Ouest Nanterre La Défense, Mosaïques – UMR Lavue (7218)

Darinka Czischke, Department of Management in the Built Environment (MBE), Faculty of Architecture and the Built Environment, Delft University of Technology, Pays-Bas

Autres chercheurs impliqués :

Pour 2016, plus de vingt-cinq chercheurs interviendront lors de cet atelier, en provenance d'Italie, d'Espagne, des Pays-Bas, de la France, de l'Allemagne, de la Grande-Bretagne, de l'Irlande, de la Suisse, de l'Autriche, de la Finlande, du Danemark et des États-Unis

Résumé

Since the early 2000's many European countries have seen the development of a wide range of alternative or "user-led" forms of housing provision, including the re-emergence of resident- or community led housing initiatives. These take a wide variety of shapes, including Community Land Trusts (CLTs), co-housing, different forms of self-organised housing, residents' cooperatives, experimental work-life communities, ecological housing communities, new settlements based on (local) community asset ownership, selfbuilding etc.

In view of the increasing level of activity in this field, both in practice and in academia, this new working group aims to bring together researchers from all over Europe (and beyond) to exchange on their work in order to create stronger synergies, seek collaboration opportunities and develop specific (and adequate) conceptual and methodological frameworks.

1. Wider social, economic and technological trends underpinning contemporary collaborative housing initiatives.
2. The organisational dynamics of collaborative housing: management, stakeholders and networks.
3. The links between collaborative housing initiatives and wider policy and institutional frameworks.
4. Collaborative housing, urban planning and neighbourhood dynamics.
5. Epistemological frameworks, methods and ethics in collaborative housing research.
